Having purchased the stock of Groceries Catalogues, prices and any information desired cheerfully furnished. Prices formerly owned by Orla Davis, I respectfully invite the public to give me a call. For the present will be found at his old stand, but in a short time will occupy the stand formerly occupied by Moore & Seeman.

Seeman, CASH GROCER, OREGON, MO. Produce taken at Highest Market Price.

The Deering!

OREGON, MO., JUNE 18, 1892. We notice a statement in The Sentinel of June 17 referring to a Minneap-olis bindes owned and used by us as having stood in Mr. Morgan's harvest field during one season. Now, while we are not engaged in the sale of harvesting machines, we deem it a duty we owe to ourselves and to the Minneapolis Harvester Co. to say in answer that it was NO FAULT OF THE MACHINE that it remained idle one moment. There was a casting broken by running into some dead alders. We ordered a new one which, by some mistake, was lost in trunsit. But even in the absence of this accident we were in need of two binders and decided to buy a Deering, which we would not have done had we been able to get THE MINNEAPOLIS. The broken casting referred to above was finally replaced, and, after using the Minneapolis

and the Deering 2 years, cutting about 200 acres, we consider the Minneapolis good for 2 YEARS' MORE SERVICE THAN THE DEERING, as well as superior in point of durability, simplicity, ease of management, quality of work and draft; using only 3 horses to cut 12 to 13 acres per day, and only increased the power when we desired to cut 16 to 18 acres per day. We cut 80 after which it is tiled in the office of the acres in 4.3.4 days with 3 horses and made five moves in the same time. 5 years, cutting 900 to 1,000 acres, creased the power when we desired to cut 16 to 18 acres per day. We can acres in 4.3-4 days with 3 horses and made five moves in the same time.

Trusting this will disabuse the minds of others of any impure motives on our part, we remain,

DERR BROTHERS.

We have used the Minneapolis binder for 5 years. It gives us the very best of satisfaction, it runs light, cuts a full swath, binds tight, it is simple and durable and gave us no trouble. We consider it the best harvester and binder made. We have seen and used other machines but like the Minneapolis better than any bave seen and used other machines but like the Minneapolis better than any other, and if we had to buy a dozen it would be the Minneapolis every time.

HESSANER BRO'S.

City, was attending to legal business in Oregon, this week. He was accompanied treatment at the Indianapolis Surgical by a Mr. Burnes. We notice a statement published in Tag Sextings, and signed by Lin M. Derrand chers, saying they have had the Minneapolis Budder five years, and it gives them the very best satisfaction, and has given THEM NO TROUBLE. In answer to this we say that Lin Derr's Minneapolis Budder stood in Mr. Morgan's field all one harvest and they could not make it work, and they came in and bought a Desring Binder of me to cut Mr. Morgan's fall wheat and other grain for other farmers. If the Minneapolis gave them NO TROUBLE why did they come and buy a Decring to ent it?

They say that the Decring cuts all right, but man heavy. Why do they work five horses on the Decring? We sold fifteen Decring Binders last senson, and have sold in all about sixty or seventy Decring Binders last senson, and have sold in all about sixty or seventy Decring Hinders here, and to most all of the best furnished. Aspen, Col., spont Sanday with Mus.
